Attn: Lieutenant Colonel Block

Dear Lieutenant Colonel Block:

This letter and attachments are in response to a phone conversation that I had with Mr. Charlie Mayer on 2-9-84.

Ecology and Environment, Inc. is a contractor to the United States Environmental Protection Agency (U.S.EPA), and is assigned to conduct site inspections and sampling under CERCLA, the Comprehensive Environmental Response, Compensation and Liability Act. The purpose of our investigation to your facility is to follow up on the CERCLA notification filed by the U.S. Army in 1981. The information gathered by this inspection will be used to rank the site using the Superfund Hazardous Ranking Scoring System which compares sites on a nationwide basis.

I tentatively set up an appointment for a site inspection of the St. Louis Support Center with Mr. Mayer on 2-23-84. At the time of the inspection we may request to conduct sampling of selected groundwater monitoring wells or surface water locations, depending on the available information presented to us.

Enclosed please find copies of my Letter of Introduction, further explaining my company's relationship to the USEPA and a blank site inspection form, to acquaint you with the type of information that we will be seeking.

Thank you for your cooperation and if you have any questions please
feel free to contact me at (312)663-9415.

Sincerely,

Dan Cozza
